AIRQUEST[®]
A Proud Member of the Carrier Family

Where Comfort
and Quality Meet

Blevins Introduces: The Airquest Difference

When you choose Airquest heating and cooling equipment, you're choosing enhanced dependability and innovation in home comfort. As a proud member of the Carrier family, you get the latest in engineering and technology. The products are designed to deliver the best in quality, energy efficiency and reliability, and each is 100% run tested. We take pride in surpassing your expectations and delivering quality you can feel.

Now In Champion Homes

Your Champion built home comes standard with either gas or electric heat included. For a complete, year-round comfort system, these homes and heating systems are designed for the easy addition of the components for central air conditioning.

HERE'S HOW IT WORKS:

Heating is built into the Champion home, off-site.

Work with your **Blevins representative** to add-on the optional cooling system that makes sense for your business.

Cooling coil and outdoor condensing unit are installed on location when or after the home is delivered

When It's Time to Turn Up the Heat...

The Champion home will be delivered to your lot with an Airquest furnace pre-installed. So when it's time to turn up the heat, you can be confident that your system will be ready to deliver the comfort you deserve. These heating systems provide reliable comfort.

ENERGY SAVINGS

If the home includes one of our gas furnaces, your customer will enjoy money-saving, up to 95% AFUE energy efficiency for the life of the unit. That means up to 95 cents of every dollar they spend on natural gas is converted into heating energy for the home.

DURABILITY/RELIABILITY

Airquest furnaces undergo some of the most detailed and stringent quality processes during assembly, including 100% run-testing of every unit we produce.

PEACE OF MIND

Airquest furnace carries a limited warranty on all functional parts. Most Airquest units feature an outstanding 10-year parts limited warranty.* Other key components, such as heat exchangers, may carry a longer limited warranty. As the designated administrator for AirQuest equipment warranties, we ensure that your system aligns perfectly with the requirements outlined in the AirQuest warranty.

* To the original owner, a 10-year parts limited warranty upon timely registration of new equipment. Warranty period is five years if not registered within 90 days. Jurisdictions wherein warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate for complete details.

When It's Time to Be Cool...

Blevins has the Airquest needed to allow customers to enjoy the comfort of a home all year long- even on the hottest days of summer.

ENERGY EFFICIENCY

The Airquest outdoor condensing unit delivers up to 14 SEER cooling efficiency.

DURABILITY/RELIABILITY

The dense wire grill shields the outdoor coil from damage while allowing easy coil cleaning.

PEACE OF MIND

Airquest air conditioner or heat pump carries a limited warranty on all functional parts. Most Airquest units feature an outstanding 10-year parts limited warranty.* Other key components may carry a longer limited warranty. As the designated administrator for AirQuest equipment warranties, we ensure that your system aligns perfectly with the requirements outlined in the AirQuest warranty.
